

# Creating a revision timetable

Either download and save or print out a week planner.

## Make a list

- Decide what you need to revise for each exam.
- Break larger tasks into smaller ones.
- Estimate the time to do each task.
- Give yourself mini deadlines.
- Plan when you will do each task.

Add the tasks to your diary, week planner or a daily schedule sheet.

## Finally - review

- How realistic was your plan?
- What worked well and what didn't?
- What can you do differently next time?
