

Spotty Posters – How to use them

The 'spotty' posters are a means to engage students in an informal and anonymous way. They can be used in workshops or left in areas frequented by students.

Equipment needed

- Print out the A3 x3 page 'spotty poster' and join them together (e.g. with cello tape)
- Stickers (spots/stars etc.) should be left attached to the posters, so that students can place the stickers beside the different options

If you have queries about using the 'spotty posters' please email iad.digitalfootprint@ed.ac.uk
