Grant recipients are expected to submit a brief report at the conclusion of their project which outlines briefly the following : nature of work completed; outcomes; benefits to student learning/student experience; dissemination activity (where relevant – actual and planned) and how the activity could inform future work or be transferred to other subject areas in the University. The brief report will be published on the IAD web pages.

Brief Report (maximum 500 words)

We investigated the possibility of using Wiki to host the resource. However, it quickly became clear that it would be difficult to train people quickly to a good level of competency and that there were limited in-house training resources for staff and students. We then began looking at SharePoint, which is part of the Office365 suite of applications and for which there are many online resources available freely and via Lynda/LinkedIn Learning. Once we decided to use SharePoint as the platform, we circulated a call via internal mailing lists and social media for documentation and reports of current and historical postgraduate initiatives organised within the School of Literatures, Languages and Cultures. These contributions were supplemented by records taken from School website news items, social media posts, and IAD funding awards. The gathered information was put into a SharePoint list, which forms the core of the LLC Postgraduate Knowledge Exchange SharePoint (Figure 1) https://uoe.sharepoint.com/sites/LLCPostgraduateKnowledgeExchange

The SharePoint list can be easily updated and added to via a SharePoint form (Figure 2), which can be accessed by visitors to the SharePoint site.

These additions will automatically populate tables on the subpages, e.g. Community and pastoral initiatives or Seminar series, depending on how an event/initiative’s classification (Figure 3).

Training for PhD researchers to take-over owner/editor rights to the SharePoint site will take place on 6 April 2021. They will be trained in managing the list and approval flows for the SharePoint, and adding new pages to the SharePoint site. This will leave the site as entirely a PhD-owned and managed resource. The site offers a model of how PGRs might document and archive their...
activities within the School. As with all initiatives, its usefulness will be seen through its longevity and whether it persists as a live resource that usefully integrates with other online spaces used to sustain the PGR community.
